

Application Data Sheet – Sampling Valve

Fax this form to 630-577-0401 or email to to sales@RHE-America.com

Date:	_____	Address:	_____
Company:	_____		_____
Division:	_____		_____
Name:	_____		_____
Title:	_____	Project Site:	_____
Telephone:	_____	Fax:	_____
Email:	_____		

Type of Material to be sampled, general description: _____

Operating temperature of reactor during sampling: _____

Operating pressure of reactor during sampling: _____

Is material free flowing ? _____

Does material cure irreversibly in air ? _____

Does the sampling valve require a heating jacket ? _____

If yes, would steam or hot oil be used ? _____

Describe pad flange size available:
(must be horizontal or straightside to vessel of pipe) _____

Is 316 SS compatible with material? _____

Are Chemraz 615 o-rings compatible with material ? _____

If no, please specify alternative o-ring material: _____

Pressure of compressed air available to actuate valve: _____

Approximate date to start program: _____

Quantity of sample required: _____
